COMFORT FROM THE START

JOBST® Elvarex® Soft

DEFY GRAVITY

JOBST®

AVAILABLE IN
READY-TO-WEAR
AND
MADE-TO-MEASURE

READY TO WEAR, READY TO GO

JOBST Elvarex Soft is available in a range of **ready-to-wear** styles and sizes, designed to meet a variety of patient needs.

SIMPLIFIED PRODUCT SELECTION WITH OPTIMISED SIZE CHART

The size charts have been optimised to cover more body shapes with fewer sizes. Helping you to save time in clinic and to simplify stock inventory management.
The new sizing system is aligned with the material properties to ensure reliable and consistent medical compression.

SOFTNESS DESIGNED TO SUPPORT CONSISTENT THERAPY

JOBST® Elvarex® Soft is designed to provide effective symptom relief for patients with mild to moderate lymphoedema and lipoedema, where comfort and skin sensitivity are key considerations. The material is designed to provide a soft feeling on the skin and support easy donning, without compromising clinical performance. When compression feels more comfortable, staying consistent with therapy can become easier.

THE TECHNOLOGY BEHIND OUR COMFORT

SOFT TOUCH

The gentle to the touch fabric supports a pleasant feeling on skin using soft yarns. This can enhance wearing comfort, particularly for patients with dry, sensitive or fragile skin.

EASY TO PUT ON

Comfortable daily application and easy to put on due to the combination of knitting technology and soft yarns.

SOFTFIT TECHNOLOGY

The JOBST SoftFit top band helps reduce digging and sliding, offering a more secure and comfortable fit throughout the day. Its finely knitted-in silicone yarn delivers gentle grip with less pressure compared to traditional top bands, helping the garment stay in place without compromising comfort.[2]

1.This is Bhavika's story and not typical of everyone with lymphoedema.
2.Optional for knee high garments and arm sleeves

WHEN TO CHOOSE JOBST ELVAREX SOFT

LYMPHOEDEMA MILD	READY-TO-WEAR
LYMPHOEDEMA MODERATE	MADE-TO-MEASURE
LIPOEDEMA	READY-TO-WEAR OR MADE-TO-MEASURE DEPENDING ON PATIENT NEEDS
ELDERLY OR PEOPLE WITH SENSITIVE SKIN	READY-TO-WEAR OR MADE-TO-MEASURE DEPENDING ON PATIENT NEEDS

APPROVED BY BOTH PATIENTS AND PROFESSIONALS

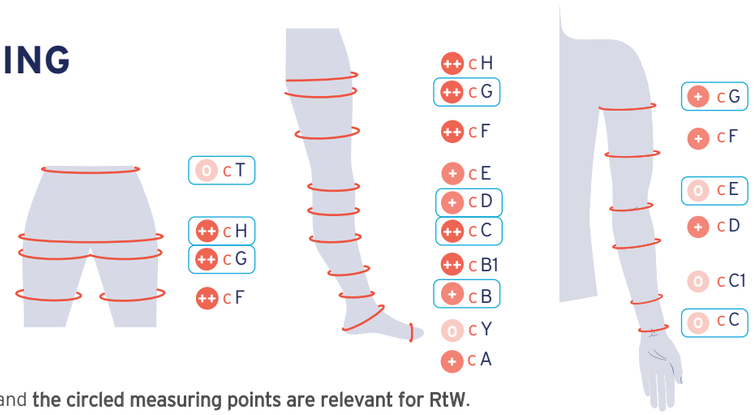
READY-TO-WEAR WITH **OPTIMISED SIZING**

MEASURING TIPS
FOR ACCURATE SIZING

In order to measure for an optimal fit circumferential measurements should be carried out under different levels of tension. The tension can range from lay-on measurement (0), to pull until 1st resistance (+), to pull until 2nd resistance (++).



All measuring points are relevant for MtM and **the circled measuring points are relevant for RtW**.

FINDING THE RIGHT SIZE
FOR READY-TO-WEAR

With JOBST Elvarex Soft, the sizing has been optimised to cover more body shapes with fewer sizes. This can make finding the right size for your patients more convenient by simplifying product selection.

SUPPORT THAT FITS JUST RIGHT

JOBST Elvarex Soft **made-to-measure** is developed to offer a precise fit tailored to each patient's body shape and clinical needs. It is designed to combine reliable compression with easy donning and softness and to perform consistently – even when needs are more complex. This helps support the long-term management of lymphoedema and lipoedema, with confidence for both patients and professionals.

JOBST® Lymphoedema compression garments

FIND THE RIGHT PRODUCT

How would you describe your patient's oedema?

ASSESSMENT OF CONDITION

- **Mild** → What is the level of limb distortion and skinfolds?
  - **None to minor** → What is your patient's tissue like?
    - **Soft** → Do funding requirements include a ready-to-wear solution, or is accessibility key?[1]
      - **Yes** → Patient is struggling with donning and/or discomfort due to sensitive skin.
      - **No** → Patient is struggling with donning and/or discomfort due to sensitive skin.
    - **Firm** → Patient is experiencing discomfort due to feeling restricted while wearing a compression garment. → Patient experiences discomfort due to feeling hot and sweaty.
  - **Minor to moderate** → What is your patient's tissue like?
- **Moderate** → What is the level of limb distortion and skinfolds?
- **Severe** → What is the level of limb distortion and skinfolds?
  - **Pronounced** → What is your patient's tissue like?
    - **Soft** → Patient is struggling with donning and/or discomfort due to sensitive skin.
    - **Very soft to hard/fibrotic/firm** → Patient is having difficulty managing their oedema throughout the day and experiences discomfort due to feeling hot. → Difficulty finding the right fit for patients with more complex body shapes.

CHALLENGES AND NEEDS

Patient is struggling with donning and/or discomfort due to sensitive skin.

JOBST® Elvarex® Soft
ready-to-wear

Ready-made sizes[1]
Suitable for a variety of needs and with high accessibility.

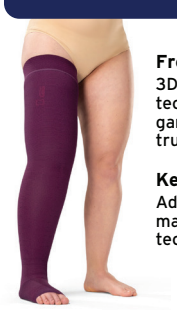
Easy to put on
Due to the combination of knitting technology and soft yarns.

Soft touch
The gentle to the touch fabric supports a pleasant feeling on skin using soft yarns.

Wall stability of fabric (firm support)

Patient experiences discomfort due to feeling hot and sweaty.

JOBST® Confidence
made-to-measure



Freedom of movement
3D ContourFit technology allows the garment to follow the true body shape.

Keeps the skin dry
Advanced moisture management technology.

Wall stability of fabric (firm support)

Patient is struggling with donning and/or discomfort due to sensitive skin.

JOBST® Elvarex® Soft
made-to-measure

Easy to put on
Due to the combination of knitting technology and soft yarns.

Soft touch
The gentle to the touch fabric supports a pleasant feeling on skin using soft yarns.

Wall stability of fabric (firm support)

Difficulty finding the right fit for patients with more complex body shapes.

JOBST® Elvarex®
made-to-measure

Reliable compression
High containment throughout the day, while helping to bridge skinfolds.

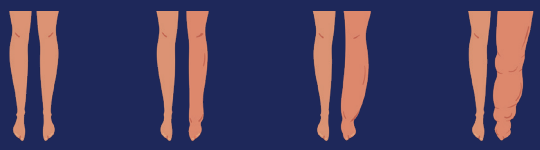
High breathability
Made with an open loop structure.

Wall stability of fabric (firm support)

Developed by Essity based on technical product features.
Individual patient needs and condition must be taken into consideration.

1. RtW, if given sizes do not fit MtM is needed
2. Based on International Society of Lymphology Executive Committee. The Diagnosis and Treatment of Peripheral Lymphedema: 2023 Consensus Document of the International Society of Lymphology. Lymphology. 2023;56(4):133-151

Examples of lymphoedema staging[2]



Stage 0 No swelling | Stage 1 Mild swelling | Stage 2 Moderate swelling | Stage 3 Severe swelling
