General Information

Food for special medical purposes:

For the dietary management of patients with or at risk of malnutrition in particular for patients with fat malabsorption and/or increased energy needs. Juice-style, high-caloric (1.5 kcal/mL) oral nutritional supplement. Fat and fibre free.

Dosage:

To be determined by a healthcare professional according to patients' needs. Recommendation for supplementary nutrition, 2 - 3 bottles (600 - 900 kcal)/day.

Important notice:

To be used under medical supervision. Not suitable as sole source of nutrition. Not suitable for children <3 years. Use with caution in children <6 years. Not suitable for patients with galactosaemia. Ensure adequate fluid intake.

Not for parenteral (I.V.) use!

Instruction for use:

Best served chilled. Shake well before use. Store at room temperature. Opened bottles may be stored in a refrigerator for up to 24 hours.

Additional considerations:

Not suitable whenever enteral nutrition is not permitted such as in acute gastrointestinal bleeding, ileus and shock. Use with caution in severe organ failure with impaired metabolism and severe forms of malassimilation. Not suitable for patients with congenital inability to metabolise nutrients contained in Fresubin Jucy DRINK.
