

Biodegradable Nitrile Gloves You Can Dispose With Ease!

Disposal

Simply dispose of your GloveOn Avalon gloves in a standard waste bin.

Landfill

Our gloves are designed to break down naturally in a landfill environment.

Biodegradation Begins

Microbes in the landfill environment kickstart the biodegradation process.

Mineralisation Process

GloveOn Avalon gloves transform into harmless natural elements such as inert humus and biogas.
*81% biodegradation in 490 days**

Return to Earth

Support the circle of life as our gloves return to enrich the earth.

*Tested based on ASTM D5511
